WHERE GUMMY **DREAMS** COME TRUE!

About Gummy Worlds

Who We Are

Gummy Worlds, where health and indulgence collide in a vibrant world of delicious gummy supplements.

Drawing on the extensive expertise we've gained in the field of dietary supplements since 2004, we embarked on our journey as Gummy Worlds with the aim of meeting the health needs of individuals of all age groups.

By combining our comprehensive experience in the dietary supplements sector with gummy-form supplements, our portfolio encompasses a wide range of products from A to Z.

**GUMMY
WORLDS**
CHEWABLE WELLNESS

 alyors

A cluster of colorful, irregularly shaped dots in shades of blue, orange, red, and white is located in the top-left corner of the slide.

Vision

Our company aims to lead in crafting top-notch, tasty gummy supplements for all ages. We're dedicated to enhancing well-being with innovative, high-quality products that inspire healthier lives. Through technology and growth, we envision our gummies becoming a trusted source of enjoyable nutrition, fostering well-being across generations.

Mission

Our goal is to craft premium gummy supplements using cutting-edge technology and strict quality standards. With the best ingredients, thorough research, and expert formulation, we strive to create a diverse range of supplements tailored to all ages' nutritional needs. We're committed to surpassing customer expectations by offering good quality products and excellent service, fostering lasting relationships with our valued customers.

What We Offer

The enjoyable form of science, technology and experience!

At Gummy Worlds, we have a wide range of products developed by our expert staff that support health and improve quality of life.

In addition to our own exciting product line, we offer private label opportunities, enabling businesses to create their own unique gummy supplement brands.

Gummy Worlds Manufacturing Facility

Gummies produced with the latest technology and world quality standards!

- 3500 sq. meters closed production area
- 1000 tons gummy production capacity per year
- Both semi & fully-automated production lines managed by experienced specialists
- Latest technology equipment
- Strict quality assurance protocols
- The highest standards from formulation development to production and packaging

The Quality Standards

We prioritize safety and transparency, ensuring that our gummy supplements meet or exceed industry standards.

Gummy production activities are approved by the relevant ministries and all products are BRC*, GMP, HACCP, ISO 22000, ISO 9001, Halal certified by internationally accredited organizations.

*The BRC certificate signifies a company's adherence to top-tier safety and quality standards in food and consumer product sectors.

Research & Development

Gummies are developed to meet international standards in formulation design, raw material, and packaging materials selection at the R&D stage.

All of the formulations are designed with a scientific approach by our expert staff in the R&D laboratories equipped with superior technology.

We support you in all the necessary steps in the formulation development process and decide on the final product together with you after pilot sample studies.

Our Unique Features

Gummy Technologies
Wide Variety of Gummy Shapes
Coating Applications
Attractive Colors
Natural & Juicy Flavors
Desired Label Claims
Various Packaging Options
Gummy Choices based on
Health Interest
Nutritional Product Category

Gummy Technologies

At Gummy Worlds, where innovation meets deliciousness, 3 gummy forms developed with innovative technology are offered you.

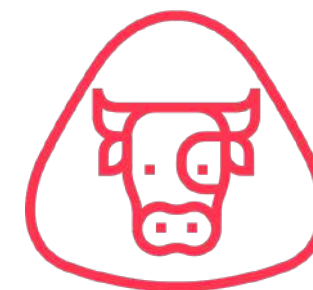

Starch Gummies

Starch gummies utilize starch-derived polysaccharides as their base. These gummies often possess a chewy consistency and serve as a versatile option for various dietary preferences, including vegan and vegetarian diets.

Pectin Gummies

Pectin is a plant-based polysaccharide. Pectin-containing products have a soft elastic texture. They are the best alternative to fit into different diets such as vegan and vegetarian.

Gelatin Based Gummies

Gelatin is a gelling agent of animal origin. Gelatin-based products are transparent, shiny and elastic. You can experience the best chewiness with our gelatin-based gummies.

Wide Variety of Gummy Shapes

Gummy shapes go beyond aesthetics, contributing to enjoyment, convenience, and engagement.

They can convey product attributes and messages. For example, a gummy shaped like a heart can symbolize a product that promotes cardiovascular health. These shapes serve as visual cues, helping consumers identify intended benefits quickly. We strive to provide an exceptional and personalized experience through visually appealing and purposeful shapes.

Coating Applications

Oil coating adds a smooth and glossy finish to the gummies, giving them an appealing shine.

Sugar coating provides a slightly crunchy and sweet outer layer to the gummies.

Sprinkle coating introduces a playful element of flavor and texture, making daily supplementation more enjoyable.

Whether it's oil or sugar coating, each option adds its own unique touch, creating a more tailored and enjoyable gummy experience.

Attractive Colors

The significance of gummy colors goes beyond visual appeal. They contribute to the overall sensory experience, aid flavor recognition, and enhance the enjoyment of consuming gummy supplements.

We are proud to offer a wide range of fascinating colors, allowing you to enjoy not only the nutritional benefits, but also the delightful visual and taste experience of our gummies.

Natural and Juicy Flavors

The taste and texture of gummy supplements play a crucial role in their overall appeal.

We incorporate fruit juice concentrate and natural flavors/colors to create gummies that are not only effective but also enjoyable to consumers.

Enhance your gummies with delightful natural flavors like Strawberry, Apple, Lemon, Orange, Peach, Tutti Frutti, Pineapple, and Mix Berry.

Desired Label Claims

With our expertise and flexibility, we are a perfect partner in creating customized gummy supplements that align with your brand and meet to the needs of your target audience.

WHERE GUMMY DREAMS COME TRUE!

Our Services

Contract Manufacturing

Our contract manufacturing services offer you the opportunity to benefit from our manufacturing facilities equipped with the latest technology and know-how in the industry.

With our expertise in gummy production, we have the capability to collaborate with you to bring your unique gummy formulations and concepts to life or to improve your existing formulations.

Private Label

Our Private Label services help you create your own private gummy brand and take part in the supplementary food market.

Our private label services extend beyond gummy production. While we continuously enrich our Gummy Worlds product range with innovation and sectoral trends, we also provide assistance with packaging design, labeling, and regulatory compliance, ensuring that the final product in line with brand identity and meets all necessary legal requirements.

Bulk Gummy

In our bulk production service, we can prepare your products in different weights (1 kg, 2 kg, 3 kg) with different packaging options that always maintain freshness.

We optimize our packaging process with fully automatic machines by applying nitrogen gas at a level that prevents the formation of contamination and maintains stability, making it the most suitable for the storage conditions for the foodstuff.

WHERE GUMMY DREAMS COME TRUE!

Build Your Dream Gummy

Your Ideal Partner

We work with a great passion to ensure that you add high quality products to your portfolios by advancing your projects with confident and reliable steps.

In all these steps, while creating new formulas, we benefit from our well-equipped laboratories, our experienced and trend-following experts. We attach importance to the sustainability of all the work done.

Our team of experts is readily available to provide guidance, answer questions, and assist you throughout the manufacturing process.

Build Your Dream Gummy

1 Gummy Quote

Share your gummy quote and let's start building your Gummy World!

2

Your Gummy Agent Technology!

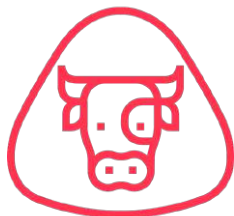

Choose the gummy technology that best suits your needs.

Starch Gummies; the vegan-friendly form of starch gummies combines the nutritional benefits of starch with the convenience of a chewable and flavorful treat.

Pectin Gummies; made from pectin, a naturally occurring substance found in fruits and vegetables. Pectin gummies offer a vegan-friendly, flavorful, and nutritious alternative to traditional gelatin-based gummies.

Gelatin Gummies; these delightful and chewy candies are made using gelatin, a protein derived from animal collagen. It provides the "jelly-like" quality that allows the gummies to be soft, pliable, and easy to chew.

3

Your Desired Formula!

You have three alternatives to decide how to proceed with the formulation. Gummy Worlds is ready to support you in every option.

**Gummy Worlds
Formulation &
Support**

**Special Formulation
Development &
Support**

**Customer Current
Formulation**

4

Your Flavor

Yummy and healthy gummies!

At Gummy Worlds you can find a wide range of gummy flavors.

Only choose your desired taste!

5

Your Color

Let's make colorful gummies!

To build the most attractive gummy you want, choose the color of your choice from more than 100 color options.

6

Your Shape & Coating

At Gummy Worlds you find an exciting collection of over 100 molds, bursting with creativity, which means we can produce a delightful array of gummies in countless playful shapes and designs for you.

We also offer coating options, sugar or oil, adding extra sweetness and flavor to your delicious treats.

7

Your Package

Select the package that best suits your needs and preferences, ensuring your gummies are packaged in a way that aligns perfectly with your requirements.

Frequently Asked Questions

Frequently Asked Questions

- **What is your minimum order quantity?**

MOQ is 1000 kg.

- **What are the package sizes for bulk production?**

1, 2 and 3 kg.

- **What type of packaging do you offer?**

Bottle with Child Resistant Cap (150, 250, 400cc), Pillow Type Packaging (10, 20, 50, 100, 1000g), Doypack Packaging

- **What are your lead times?**

Lead time is 8 to 12 weeks.

- **Do your products supply the international quality standards?**

Gummy production activities are approved by the relevant ministries and all products are BRC, GMP, ISO 22000, ISO 9001, Halal certified by internationally accredited organizations.

- **How many different shapes, colors and flavors can you make gummies in?**

Our portfolio offers more than a hundred color and pattern alternatives. Gummies can be produced according to the desired taste.

Frequently Asked Questions

- **Do you carry vegan or sugar free gummies? Or gummies with different features?**
Yes, we can develop the gummy formulation according to the desired brand claims.
- **What sweeteners do the sugar-free gummies contain?**
As sweetener Stevia (natural flavoring) is used.
- **Can you assist with marketing?**
Yes, we can fulfill all your graphic design and marketing needs.
- **Can your gummies ship to warmer climates without melting?**
When developing formulas, climatic conditions are taken into account to maintain stability. For these conditions, we suggest pectin-formed gummies.
- **What is the shelf life of your gummy products?**
Under normal conditions, shelf life is approximately 24 months.
- **Do you send samples?**
Yes, we send samples.

Together, let's shape the future of commerce and deliver exceptional products to customers around the world.
