

FILTER SYSTEMS

Cartridge Filter :

The cartridge filter should be definitely assembled in when dry vacuum is running. Otherwise, dusts and large particles may penetrate in to motor turbine and may give damage which makes the warranty in valid. Please keep clean the cartridge filter for long-term usage. Clean the filter by using of a soft brush.

Sponge Filter :

Please use the sponge filter during washing or vacuuming water. It protects motor against water and foam. Clean the filter by running water after each usage and make it dry after washing the filters will deteriorate earlier when it lefts with shampoo and wet.

Exhaust Filter :

Exhaust filter is used to trap the leaked particles during dry cleaning.

MODEL
114H

QVac

Features

- Carpet washer system with shampoo
- Wet & Dry vacuum cleaning system
- Multi - functional accessories for carpet, armchair, curtain, hard floor and every corner
- High suction power (1950mm H₂O)
- Ergonomic design, automatic cord rewriter
- Sawdust, leaf cleaning with blow out function
- Crush proof hose
- 3 level of dust filtration
- Telescopic tube

TECHNICAL FEATURES

Input power max	: 1000 W
Vacuum	: 1950 mmSS
Rated voltage	: 220-240 V AC, 50/60 Hz
Air flow	: 200 m ³ /h
Water suction capacity	: 1,5 l/sn
Pump power	: 26 W
Pump pressure	: 2,5 bar
Extra basin volume	: 7 l
Waste basin volume	: 8,5 l
Dust bag capacity	: 5 l
IP Kodu	: IPX4

SHIPPING INFORMATION

Box Size	: 410 x 510 x 600 mm
Carton Weight	: 13,5 kg
Qty/20' Container	: 220 Units
Qty/40' HQ Container	: 500 Units
