

KRISTAL OIL

SINCE 1938..

KRISTAL OIL

Tradition of Years – Since 1938

We established our company in 1938 in İzmir by Anthony Micallef, Kristal Oil is Turkey's first and the biggest packed and branded olive oil company. In 2007, with Arkas Holding becoming shareholder in Kristal Oil, the company has increased its investments and production capacity even more. Also, Arkas Holding is one of the biggest shipping companies in the world and It gives us shipping advantages. Today, We are part of the International olive oil council, and our factory got an “AA grade” from BRC Audit Reports. We've more than 10 quality qualification certificates for our products. We got lots of awards from International olive oil contests. We are exporting to more than 37 countries.

Kristal Oil, still known in Turkey as the “Oil with the Steamboat” due to its logo, has been customers’ first choice for generations with its high-quality products and its’ reliability.

KRISTAL OIL

Quality, Innovation, Trust

Since its foundation, Kristal Oil has adopted the “high quality product” and “perfect service” principles. Following the new technologies, Kristal Oil works in accordance with the ecological balances, in harmony with nature, and with the awareness of human health, at its plants built on 20.000 m².

Hygienic production is one of the principal rules for Kristal Oil. It offers products in glass bottles and tin cans, which have the healthiest storage conditions for olive oil. Kristal Oil produces the products with the same flavor and excellence twelve months a year without compromising product quality. Kristal Oil is subject to National Olive and Olive Oil Council quality control program. Our laboratory is accredited by the International Olive Oil Council. We produce in accordance with national and international standards, meanwhile we obtained the following certificates:

- TS EN ISO 9001 Quality Management Systems,
- TS EN ISO 22000 Food Safety Management Systems,
- All Kristal Oil products have Halal Food and Kosher (OU) certificates.
- Organic products are certified by ECOCERT.
- *BRC AA grade Audit report available.

AYVALIK PRESSING MILL

At our environmental-friendly premises in Ayvalik, top quality olives are processed through 2-phase fully automated continuous system. After separated by leaves and cones, olives are pressed and crushed physically in the crusher in order for obtaining the olive paste, which is then transferred to decanter section where the oil is separated from olive pomace and vegetable water. After being cleaned through re-centrifuging, virgin olive oil is filled into stainless steel tanks and then delivered to the Bornova Factory in Izmir.

BORNOVA FACTORY – Headquarters

At our Bornova Factory, we have our physical refinery and filling lines which are capable to fill from 250ml up to 18lt Glass Bottles, Pet Bottles and tin cans. This is the biggest physical refinery facility in Turkey. Extra virgin olive oils are received from our Ayvalik Plant and all-around Turkey. They are filtered and stored in stainless steel tanks at a temperature not exceeding 22°C. After packaging, they are distributed all around Turkey and the world.

Lampante olive oils coming from all around Turkey are refined with the «physical refining process» in order to obtain refined olive oil. After blending it with extra virgin olive oils, it is packed and distributed to both domestic regions and export markets.

BORNOVA FACTORY CAPACITY FIGURES

Refining capacity : 150 Metric ton/day

Packaging capacity : 300 Metric ton/day (5 lines in total are capable to fill from 250ml to 18lt Glass Bottles, Pet Bottles and Tin Cans)

Storage capacity : Lampante 7.000 MT
Refined 3.000 MT
EVOO 1.250 MT

Location : 4 km far away from to Izmir Port,
it gives us shipping cost advantage.

WHY TURKISH OLIVE OIL?
