About Us

Founded in 1983 by trading paint, chipboard, and glue, Gün Ticaret Company entered the baby diaper sector in 2004 under the name Yenigün Baby Diaper, becoming one of the first baby diaper manufacturers in Turkey and Adana. Since then, it has earned respect and trust among companies operating in the global baby diaper industry.

Our company, Yenigün Baby Diaper, and our brand Dolfy, as a core vision, are always conscious of their responsibilities towards the environment, the well-being of people, and the happiness of employees. In this context, choosing the right suppliers, ensuring our customers and consumers have access to the healthiest products, and maintaining a family-like atmosphere for our employees are among our most important principles.

Protecting the world and the environment we live in, reducing waste at the source, reusing, and recycling, and sharing these efforts with our employees, customers, suppliers, and society are among the most fundamental duties of the managers and employees of Yenigün Baby Diaper.
