What it is:

It is a peeling solution that includes 10% Alpha Hydroxy Acid (Lactic Acid, Glycolic Acid, Malic Acid, Gluconic Acid, Tartaric Acid, Ascorbic Acid) and 2% Beta Hydroxy Acid (Salicylic Acid). It rejuvenates, freshens, and gives the skin a bright appearance. In addition, it supports balancing the skin tone and reduces skin sensitivity with the help of Aloe vera extract, Tasmanian Pepper extract, and Bisabolol in its ingredient. It provides skin a brighter and smoother appearance.

How to use:

Apply to clean, dry skin for effective results, avoiding the eye area. You can apply the solution in your night routine. Wait 10 minutes after applying and rinse with plenty of water. It is recommended to apply twice a week. There must be minimum of 3 days between applications.

SKIN TYPES

- All skin types
- Blackhead and unevenness • dull skin
- Acne skin
- Not suitable for irritated skin!

**It is tested dermatologically.*

AHA:

AHAs are water-soluble acids made from sugary fruits. They play an important role in removing dead cells from the skin's surface. They help exfoliate the surface of your skin, therefore they produce new and more even pigmented skin cells. The new skin revealed underneath is brighter and more radiant.

Hyaluronic Acid:

Hyaluronic Acid has a critical role in retaining skin moisture. When it is applied topically, it helps moisturize the skin and protects the hydration as a moisturizer. Just one gram of hyaluronic acid has the capacity to hold up to 6 liters of water. It creates a 3-dimensional network for moisturizing the skin with Hyaluronic acid varieties with different properties and molecular sizes, and it penetrates different layers of the skin. It provides multidimensional moisturizing to the skin and gives it elasticity.

Tasmanian Pepper:

It shows an immediate effect on skin rashes by reducing the sensitivity that stems from desquamation. It fights with its soothing effect against sensitivity conditions such as burning, stinging, and itching.

**What it is:**

Brightening Serum helps prevent skin tone unevenness and spots that may occur, also it provides intense moisture and care with Hyaluronic Acid and herbal supports. It helps the skin reach a lively, bright, and luminous appearance when it's regularly used.

- Dark skin spots (pregnancy blemishes, sun spots, acne spots, age spots)
- uneven skin tone

How to use:

Apply to clean, dry skin for effective results. You can apply the serum day or night.

SKIN TYPES:

- All skin types
- Blackhead
- Dark spots
- Acne
- Uneven skin tone

****It is tested dermatologically.***

**Arbutin:**

Arbutin inhibits the tyrosinase enzyme that helps to produce melanin, in this way it prevents and decolors dark spots, and redounds more decent skin. It has sun protection properties. Arbutin helps skin to gain a brighter, more luminous, and lively appearance.

Hyaluronic Acid:

Hyaluronic Acid has a critical role in retaining skin moisture. When it is applied topically, it helps moisturize the skin and protects the hydration as a moisturizer. Just one gram of hyaluronic acid has the capacity to hold up to 6 liters of water. It creates a 3-dimensional network for moisturizing the skin with Hyaluronic acid varieties with different properties and molecular sizes, and it penetrates different layers of the skin. It provides multidimensional moisturizing to the skin and gives it elasticity.

**What it is:**

New-generation Hyaluronic Acid aims to restore the moisture lost by the skin and helps protect the strength of the skin's outer barrier with Provitamin B5. It gives skin a moist, shining, and soft appearance.

- All skin types that need moisture
- Dry skins
- Skins in need of anti-aging care
- Pale and dull skins

How to use:

Apply the serum to clean and dry skin for effective results. You can apply it day or night.

SKIN TYPES:

- **All skin types**
- **Anti-aging**
- **Mature skins**
- **Dull skins**
- **Skins in need of moisture**

****It is tested dermatologically.***

**Hyaluronic Acid:**

Pentavitin is a moisturizing complex that provides instant hydration to the skin and its effect lasts for hours. It aims to visibly reduce the dry, old appearance by forming a moistening reservoir that supplies intense moisture.

What it is:

Eye Contour Serum helps to tighten the eye area with its Caffeine content. Biotechnologically produced dismutase complex of regu age active with carefully purified natural soy and rice peptides visibly diminish the dark circle under the eyes and eye swelling. It contains vitamin C in stable form for a bright appearance on the skin and nutritive vitamin support. In the formula enriched with prebiotic thickeners, the serum provides the moisture needed by the eye area and helps to form an elastic skin texture thanks to its high content of hyaluronic acid in addition to avocado extract.

- Skins with dark circles and under-eye bags
- Skins with uneven skin tone under and around the eyes

How to use:

Apply the serum to clean and dry skin for effective results. No need to rinse.

SKIN TYPES:

- All skin types
- Skins with under-eye bags
- Skins with dark circles under the eye
- Uneven skin tone

****It is tested dermatologically.***

****It is tested ophthalmologically.***

Caffeine:

Caffeine stimulates microcirculation and diminishes bags and skin tone differences under the eye. It serves the function of increasing the synthesis of collagen and elastin. It is an antioxidant.

Hyaluronic Acid:

Hyaluronic Acid has a critical role in retaining skin moisture. When it is applied topically, it helps moisturize the skin and protects the hydration as a moisturizer. Just one gram of hyaluronic acid has the capacity to hold up to 6 liters of water. It creates a 3-dimensional network for moisturizing the skin with Hyaluronic acid varieties with different properties and molecular sizes, and it penetrates different layers of the skin. It provides multidimensional moisturizing to the skin and gives it elasticity.

What it is:

Pore Tightening & Lightening Serum strengthens the skin barrier and aims to reduce fine line formation by tightening pores. It fights against dark spot formation and helps to balance skin tone. Besides, it soothes and softens the skin with oil leaf extract and bisabolol in it.

- Skins with enlarged pores
- Acne skins
- Oily skins

How to use:

After cleansing the skin, apply a few drops of serum to the whole skin day and night. (avoid eye area)

SKIN TYPES:

- *Oily and combination skins*
- *Dark spots and unevenness*
- *Acne*
- *Sebum balancing*

****It is tested dermatologically.***

Niacinamide:

Niacinamide reduces fine lines and discoloration on the skin. Besides, it strengthens the skin barrier and helps the skin to get a more luminous and brighter appearance. Niacinamide repairs the skin and protects it against aging.

Pentavitin:

Pentavitin is a moisturizing complex that provides instant hydration to the skin and its effect lasts for hours. It aims to visibly reduce the dry, old appearance by creating a moistening reservoir that supplies intense moisture.

What it is:

Pore Firming & Purifying Tonic purifies the skin from dead cells, oil, dirt, and makeup and provides a clean and fresh appearance. It minimizes pores and refreshes the skin.

- Skins with pore problem
- Oily skins
- All skin types

****It is tested dermatologically.***
